

# Networks & Heterogeneous Media

ISSN 1556-1801  
eISSN 1556-181X  
2020 IF: 1.213

## About Journal

*Networks & Heterogeneous Media* (NHM) offers a strong combination of three features: Interdisciplinary character, specific focus, and deep mathematical content. Also, the journal aims to create a link between the discrete and the continuous communities, which distinguishes it from other journals with strong PDE orientation. NHM publishes original contributions of high quality in networks, heterogeneous media and related fields. NHM is thus devoted to research work on complex media arising in mathematical, physical, engineering, socio-economical and bio-medical problems.

- NHM is a quarterly publication.
- It is indexed in Mathematical Reviews/MathSciNet, SCIE, Scopus, zbMATH Open, and more.

## Editors In Chief

Seung-Yeal Ha  
syha@snu.ac.kr

Pierre-Emmanuel Jabin  
pejabin@psu.edu

Kenneth Karlsen  
kennethk@math.uio.no

## Editor in Chief for Special Issues

Benedetto Piccoli  
piccoli@camden.rutgers.edu
